SUMMARY

I am an enthusiastic CS student, quick and self-learner.
Always strive to learn and solve new problems.

EDUCATION

Bachelor Computer Science
computers and information minufiya University.
📅 10/2020 - 08/2024

EXPERIENCE

Software engineering hackathon
orange digital center Egypt
📅 11/2020   📍 e ITI creativa minufiya
- ranked 1 and my degree was 100%. certificate
- Content: game development using sfml library in c++.
- What I do:
  -make needed tasks during the hackathon.
  -develop 2 games individually (doodle, ping pong).
  -develop 1 game with team on last day in 5 hours (snake)
  -The game was built from scratch.
  -I am responsible for logic and part of implementation.
  -I used my problem-solving skills.

SKILLS

Basic skills-Data structures.   -Algorithms.   -competitive programming.-Object-Oriented Programming (OOP).
-Clean code.   -Database

TECHNOLOGIES

Programming languages	**WEB**	**Data base**
-c++ , java -c# , javascript , python [basics]	-HTML,CSS,JS,nodejs,express [basics] -spring boot	-mySQL ,SQL -mongoDB [basics]

Tools

-Git , GitHub
-linux os[basics]

PROJECTS

collage system
🔗 https://github.com/said-ahmd/collage-system
- it is a web app that manage the doctors and students courses-attendance-materials.
